EDUCATION

George Mason University - *Fairfax, VA* August 2026 - Present
Ph.D. in Human Factors and Applied Cognition Psychology

Hamilton College - *Clinton, NY* May 2025
Bachelor of Arts in Computer Science and Psychology
Overall GPA: 3.85/4.00

RELEVANT PROJECTS

Psychology Senior Thesis, Hamilton College - Clinton, NY January 2025 - May 2025

- Performed a literature review on the moral foreign language effect; developed a hypothesis based on gaps in literature
- Independently designed an experiment, submitted project information for IRB approval, created Qualtrics surveys, and analyzed data in SPSS
- Wrote a 23-page research paper and created a ten-minute thesis presentation for the Hamilton College community

Computer Science Senior Project, Hamilton College - Clinton, NY August 2024 - December 2024

- Developed a grant management application; learned Node.js, JavaScript and SQLite during project
- Researched and implemented form design in HTML and CSS, email APIs, and database integration
- Regularly interfaced with client; presented application design and progress to thesis seminar

RELEVANT EXPERIENCE

Research Assistant, UNC Chapel Hill - Chapel Hill, NC September 2025 - August 2026

- Ran participants through research protocol testing the feasibility of new sensor technology for measuring electronic screen exposure
- Recruited participants over the phone and in-person for three different studies
- Wireframed and built a nutrition tracking web application for a pilot study

Usability Research Assistant, Hamilton College - Clinton, NY January 2025 - May 2025

- Worked with undergraduate students on human-subjects research evaluating a Google Drive extension
- Created Qualtrics questionnaires, facilitated diary studies and conducted post-study interviews with participants
- Built weekly shift schedules for all research assistants; maintained participant scheduling system

Human Factors Psychology Research Assistant, Rice University - Houston, TX June 2024 - July 2024

- Worked to develop an explainable AI model for automated vehicles
- Collaborated with a faculty mentor and graduate student in their lab for 8 weeks; worked on literature reviews, running participants and analyzing data
- Created and presented a 12-minute presentation, manuscript and poster for a conference presentation

SKILLS

Programming: JavaScript, Python, Java, HTML, CSS, C++, Node.js, SQLite, GitHub
Data Analysis: R, Python, SPSS, JASP
Human-Subjects Research: Qualtrics, Chronicle, Survey Signal
Wireframming: Figma, Balsamiq

PUBLICATIONS

Garcia, K. R., **Duncan, J.**, & Chen, J. (2025). User-Centered Explainable Artificial Intelligence in Partially Automated Vehicles. *Proceedings of the Human Factors and Ergonomics Society Annual Meeting*.

Nie, S., Simeone, J., Lera, S., Weinstein, E., **Duncan, J.**, Reed, L., Izydorczak, I., Whynott, C., Ceccon, L., & Morrison-Smith, S. (2027). From Permissive Defaults to Intentional Sharing: Rethinking Access Control in Research Collaborations. Under review at the *ACM Conference on Computer-Supported Cooperative Work and Social Computing (CSCW)*.

PRESENTATIONS

Garcia, K., **Duncan, J.** User-Centered Explainable Artificial Intelligence in Partially Automated Vehicles, *HFES ASPIRE*, Chicago, IL.

AWARDS & HONORS

Psi Chi Psychology Honor Society: Member — Inducted April 2023
Thesis of Distinction Award Recipient — May 2025

ADDITIONAL EXPERIENCE

Substitute Teacher, Grafton Public Schools - Grafton, MA — Per Diem December 2021 - June 2025

- Engaging students in kindergarten through 6th grade with educational activities in the absence of their teacher
- Working with faculty to assist with school day procedures; covering multiple classes in a day if needed

Senior Admission Fellow, Hamilton College Admission - Clinton, NY — August 2024 - May 2025

- Interviewed up to ten prospective students each week; created interview write-ups for the student's file
- Engaged with prospective students and their families as part of panels and information sessions

Volunteer Team Lead, Community Harvest Project - Grafton, MA — June 2025 - August 2025

- Led groups of up to 20 individuals through planting, tending, and harvesting crops grown for local hunger relief
- Quickly learned new farming tasks to be completed by the group; ensured I could correctly disseminate information to the larger group after a brief demonstration
